- 3. From the Media type dropdown list, select the appropriate media type settings
 - Notes:
 - In Rimage system that only has one input bin, the **Media type** dropdown list is not available.

Combination	Select 'Combination' for multiple media types.		
Bin 1 CDR Input Only	CDR Input Only		
Bin 2 DVDR Input Only	DVDR Input Only		
Bin 3 Blu-ray Input Only	Blu-ray Input Only		
Bin 4 Output/Reject	Output/Reject		
Tray Unused	Unused	,	

4. From each of the **Bin** configuration dropdown lists, select the appropriate media type that each bin will hold.

Notes:

- If you have Combination selected for your **Media Type**, you must have two different media types selected for your bin configurations.
- You must have at least one Output bin and one Reject bin. Output/Reject does count for this.
- 5. Select **OK**. The *Bin Configuration* Settings screen closes, and Rimage System Manager should now update the Media portion your configuration settings.
